FVS IS BUILT ON MY JOURNEY.

THE PROBLEM

PEOPLE'S CONTENT IS A STUCK ASSET.

1. Your personal media library keeps growing.[1]

2. Creating a clear narrative takes time and skill.[2]

3. Popular editing apps are not user-friendly.[3]

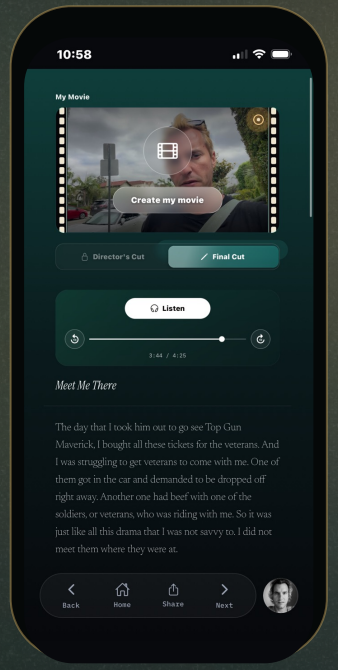
THE SOLUTION

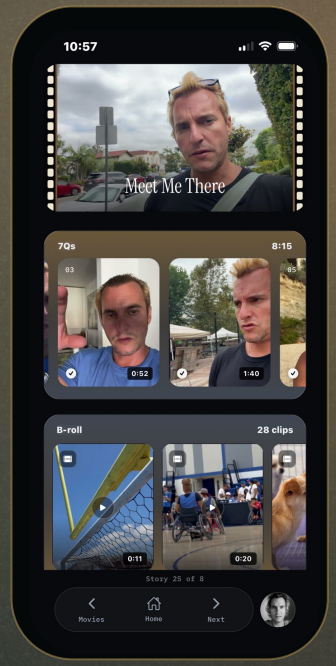
YOUR STORY IS A FINISHED MOVIE.

YOU TELL IT



Your story

WE MAKE IT



Your movie

WE STORE IT

Your chapters

CREATORS WANT TO SAVE TIME.

- Content creators burn out writing, filming, editing, and publishing weekly videos.[1]
- AI can assemble your own content into a finished story.
- Free distribution. YouTube doubles Netflix on US TVs.[2]

90%

Forecast drop in the cost to run AI by 2030.[3]

MARKET SIZE

86 MILLION CREATORS. WE START WITH 500.

TAM · 246 MILLION[1]

Video content publishing worldwide (2025), growing to 267 million by 2030.

SAM · 86 MILLION[1]

35% of all creators treat it as work, aspirational, and professional.

SOM · 20,000[2]

First milestone: 500 paying customers by November 2027. Then 20,000 by November 2029.

FREE MOVIES TURN CREATORS INTO MARKETERS.

FREE MOVIE

A small group of creators gets a free movie.

CREATOR SHARES

They show their audience. Referrals and word of mouth.

PAID OR LEGACY

Some buy more movies. Some give a Legacy film.

COMPETITION

EVERYTHING ELSE COSTS HOURS OR MONEY.

	DO IT YOURSELF	HIRE SOMEONE	FVS DOES BOTH
YOUR MOVIE *Don't offer story*	Editing apps CapCut, iMovie, Descript, DaVinci Resolve	Hire an editor Upwork, Fiverr	**FVS — No hours** Crafts your story and delivers a short film with titles and music in minutes.*
YOUR LIFE STORY *Don't offer movie*	Tell it yourself Storyworth, Remento	Hire a ghostwriter StoryTerrace, LifeBook Memoirs	

FVS STORY ENGINE IS OUR MOAT

*Measured: your story in about 6 minutes, your movie in about 7.

WHERE WE ARE

IT WORKS.

Next we prove people pay.

FUNNEL STAGE	NUMBER	CONVERSION
Accounts created	87	100%
People with a finished movie	6	6.9% of accounts
Paid customers	0	0% (not offered yet)

As tracked in our database, Nov 1, 2026. Team and demo accounts not counted.

Not proven yet: completion, paid conversion, repeat use, sharing and scalable acquisition.

Early beta learning: completion was low in a broad test group, so we start with creators who are already comfortable on camera.
